## Cliff's Notes

Along with the New Year comes a new look for TAC Industries. Our three year Strategic Plan challenged us to establish a new visible identity for TAC. So for the past several months our Communications Committee, made up of Board Members and Senior Management, have reviewed dozens of names and logos that would help freshen up the look of our organization and better share the multi-faceted nature of our company's involvement with helping people with disabilities.

We chose to keep TAC because of its strong heritage and community recognition,

but changed Industries to Enterprises to recognize the broad nature and future of our work that includes habilitation services, vocational training, life skill development and housing maintenance management in addition to our industrial activities. We think the new name and logo presents a more balanced expression of TAC's total mission. You will start to see its crisp new face and bright colors roll out TAC-wide in early 2009.

If you have any questions or comments please contact us at 525-7421 or e-mail us at [feedback@tacind.com](mailto:feedback@tacind.com). As always, thank you for your support!

## TAC Work: Rittal Filter Fan Job Underway

TAC has contracted with Rittal Corporation to assemble five different models of filter fans. The fans will ultimately be installed in Rittal cabinets in order to provide an enclosed, clean air environment for computers.

The contract calls for 8,882 units to be assembled over the next 12 months with the first delivery scheduled for January 2009.

Initially five Consumers will be employed. Karla Boggs is supervising the job. Three new workstations with air tools and fixtures have been installed and assembly has begun.

## TAC Life: New Staff Additions and Facility Renovations

My name is Bryan Bailey. I am the new TAC program supervisor for the evaluation department, community inclusion, community employment, and day programming. I previously worked at the Springview Developmental Center, then moved to working with at-risk teenagers and as a supervisor with a therapeutic foster care

agency. I am always looking for input on how we can improve our Consumer programs and services. If you have any comments or suggestions, please call me at 525-7444.

My name is Therina Thompson. I am a Licensed Practical Nurse and the newest addition to the nursing clinic at TAC. I was previously employed as

a Unit Manager at Lockefield Village located in Indianapolis, Indiana. My goal is to help enhance the medical services that are provided to our Consumers. If you have any questions or concerns, please contact me at 525-7422.

Habilitation Specialists' offices are currently undergoing renovation. A full report on the upgrades next month!

## TAC Home: Fire Safety Inspections Ensure Happy Holidays

Consistent with our mission of ensuring safety and well-being of our tenants, the Housing Connection (HC) has just completed its annual fire safety reviews. This project was supported by HC's partnership with the City of Springfield Fire Department.

This four-step process consisted of: 1) preliminary assessments in November by our maintenance staff to

anticipate potential concerns; 2) a thorough inspection of each HC home by our maintenance supervisor and Lieutenant Powell on Dec. 2nd; 3) sharing appropriate information with home staff and service providers, and 4) prompt attention to any and all recommendations. For additional information, call 525-7474.

Have a Happy & Safe New Year!
